

COMPANY OVERVIEW

Linoss Consulting LLC is a U.S.-based technology and management consulting firm headquartered in **Allen, Texas**. We support **federal, state, and commercial clients** by optimizing mission-critical systems through ERP implementation, AI-driven automation, and data-informed decision frameworks. Our team specializes in enterprise transformation, ERP modernization, and AI-enabled operational intelligence — delivering rapid, modular solutions tailored to each client's mission and budget.

CORE CAPABILITIES

ERP Services

SAP S/4HANA, Oracle, and Dynamics 365 implementations, migrations, and modernization across federal and commercial environments.

AI & Automation

Predictive analytics, autonomous AI agents, and intelligent workflow automation embedded natively in ERP and operational systems.

Digital Strategy

Cloud migration, enterprise architecture, system integrations, and IT roadmap design aligned to mission objectives.

Pricing & Revenue Optimization

Cost-plus, CPFF, CPIF, and T&M pricing models. Real-time pricing intelligence for government contract compliance and profitability.

Program Management

PMO leadership, transformation delivery, risk management, and ERP program control tower for large-scale enterprise initiatives.

App Managed Services

Production support, SLA-defined response times, and continuous optimization for SAP ECC through S/4HANA, Ariba, C4C, and more.

AI ERP MODULAR SOLUTIONS

AI-Enhanced ERP Module Portfolio

8 ERP CONNECTORS · PLUG & PLAY

Modular, AI-augmented ERP applications across the full SAP suite — deployable independently as standalone solutions or integrated into a unified intelligent agents for real-time signal ingestion, scenario simulation, and automated process execution.

FINANCE & CONTROLLING

FICO · AOP Planning
AFE Mgmt · GL / Cost Center
CapEx / OpEx

SUPPLY CHAIN & OPS

SCM · EWM · OTC · GTS
PLM · SRM

HR, CRM & PROJECTS

SuccessFactors · SAP Success
Ariba · Concur

◆ **AI Advisor** — Claude-powered program intelligence with scenario simulation, forecast generation, and AI signal ingestion from Teams, Email, and ERP event streams. Executive risk heat map, workstream tracker, and KPI dashboard across all connected modules.

PROPRIETARY PLATFORM — LINOSCORE (LINOSCORE.COM)

AI-Powered Enterprise Platform

LinoScore unifies supply chain operations, program control, budget intelligence, and pricing optimization into a single native platform — with pre-built connectors to SAP, Oracle, Dynamics 365, Workday, and NetSuite.

AI Agents

24/7 monitoring, anomaly detection & corrective action

End-to-End Visibility

Real-time view: suppliers, warehouses, carriers, customers

Logistics Automation

Auto-routing, carrier selection & dynamic scheduling

Supplier Network

Onboarding, AI risk scoring & collaboration hub

Demand Forecasting

ML models predicting spikes and stockouts

Compliance & Audit

Automated checks & chain-of-custody trail

\$ Pricing Intelligence Engine

Real-time pricing optimization purpose-built for government contract environments. Supports cost-plus, CPFF, CPIF, and T&M structures — automating competitive pricing analysis, margin protection, and contract compliance scoring.

Cost-Plus · CPFF · CPIF · T&M · Margin Protection · Compliance Scoring

ENTERPRISE MANAGEMENT TOOLS

AI Project Control Tower

PMO Intelligence for ERP Programs

Executive dashboard with risk heat map, workstream tracking, milestone management, and real-time escalation across multi-system ERP transformations.

Risk Heat Map · KPI Dashboard · Milestone Mgmt

Budget Intelligence Suite

AOP · CapEx · OpEx · AFE

Real-time financial control connected to ERP GL. AOP by cost center, CapEx/OpEx tracking, AFE multi-level approval workflows, and automatic overrun alerts.

AOP vs Actuals · CapEx/OpEx · AFE Approvals

INTEGRATES WITH

SAP S/4HANA · SAP ECC · Oracle Fusion · Dynamics 365 · Workday · NetSuite · WMS / TMS
Open API

PAST PERFORMANCE & SELECTED EXPERIENCE

OldCastle Building Envelope

ERP TRANSFORMATION

Enterprise-Wide SAP ERP Transformation

Led end-to-end SAP ERP transformation for one of North America's largest architectural glass and glazing manufacturers. Engagement spanned business process reengineering, system configuration, data migration, and go-live support across multiple manufacturing and distribution sites.

SAP S/4HANA · Manufacturing · Data Migration
Multi-Site Rollout

HollyFrontier

CENTRAL FINANCE

SAP Central Finance Solution Deployment

Deployed SAP Central Finance for HollyFrontier, a major U.S. petroleum refiner, consolidating financial data from disparate source systems into a single real-time financial platform. Delivered unified financial reporting, intercompany reconciliation, and executive-level P&L visibility across the enterprise.

SAP Central Finance · FICO
Financial Consolidation · Energy Sector

Accenture

PROGRAM MANAGEMENT

ERP Program Management & PMO Delivery

Partnered with Accenture to provide program management leadership on large-scale ERP transformation initiatives. Responsibilities included PMO governance, delivery methodology alignment, stakeholder reporting, risk management, and workstream coordination across global implementation teams.

PMO Leadership · ERP Delivery
Risk Management · Global Programs
